

Project 1 CS260 - Faculty Recruitment Portal

Dr. Mayank Agarwal

Deadline 9th April will be progress meet for the project. You will need to make 5m video and upload on youtube and I will evaluate based on your progress. Final Submission post end sem

Things to be kept in mind

1. You need to make the project in a group of 2 students. If you wish you can do individually also.
2. You can take online help, but you need to understand the code flow process.
3. Both partners need to commit the project to their respective github.
4. Program will be checked for plagiarism.
